

LUKE LACY

Sport & Exercise Science | Performance Analysis | Data & Technology
luke.lacey14@gmail.com | Melbourne, Victoria | [linkedin.com/in/luke-lacy](https://www.linkedin.com/in/luke-lacy)

PROFESSIONAL SUMMARY

Final-year Bachelor of Sport and Exercise Science student at Swinburne University of Technology, currently completing an elite-level internship with the Richmond Football Club as a Performance Analyst. Passionate about using data, technology, and sport science to drive competitive advantage in elite sport and improve health outcomes for everyday people. Experienced in R programming, Shiny dashboard development, Hudl Sportscode, and Champion Data game coding. Proven ability to build analytical tools from the ground up and deliver insights to coaching staff in a high-performance AFL environment.

EXPERIENCE

Performance Analyst Intern | Richmond Football Club — VFL/AFL Jan 2026 – Sep 2026

- Built interactive data dashboards and interfaces in R and Shiny for the VFL performance analysis pipeline
- Operated Hudl Sportscode to construct code windows and output windows for live and post-game video analysis
- Developed proficiency in Champion Data statistical definitions to accurately code AFL games
- Managed setup and packdown of VFL game day coaches box, supporting staff with real-time analytics

EDUCATION

Bachelor of Sport & Exercise Science | Swinburne University of Technology 2024 – 2026 (Expected EOY 2026)
Hawthorn Campus, Melbourne

Diploma of Health Science | Swinburne University of Technology Completed

VCE Graduate | Frankston High School 2015

TECHNICAL SKILLS

R Programming & Shiny App Development
Hudl Sportscode (Code & Output Windows)
Champion Data — AFL Game Coding
Data Visualisation & Dashboard Design
GPS & Athlete Load Monitoring
Video Analysis (2D/3D)
Fitness Testing & Assessment

HTML / CSS / JavaScript
Web Application & API Development
Exercise Prescription & Delivery
Strength & Conditioning Principles
Athlete Monitoring Systems
Microsoft Office Suite
Performance Analytics Reporting

INTERPERSONAL SKILLS

Leadership & Initiative	Communication	Teamwork & Collaboration
Critical Thinking	Attention to Detail	Adaptability
Problem Solving	Time Management	Self-Motivation

QUALIFICATIONS & CERTIFICATIONS

- First Aid Certificate — Current
- CPR Certificate — Current
- Working With Children Check (WWCC) — Current
- Diploma of Health Science — Swinburne University of Technology
- Bachelor of Sport & Exercise Science — In Progress, expected completion EOY 2026
- Performance Analyst Internship — Richmond Football Club, VFL/AFL (2026)

KEY PROJECTS

AFL Performance Analytics Dashboard — *Richmond Football Club*

- Designed and built R Shiny dashboards for the Richmond FC VFL analysis pipeline, giving coaching staff access to real-time player and team data
- Integrated Champion Data outputs and Sportscode video tags into unified, interactive analytical interfaces

Athlete Monitoring System Dashboard — *University Project*

- Built a full athlete monitoring dashboard tracking KPIs and wellness metrics across a squad using R and synthetic data
- Visualised load and readiness trends to identify athletes at risk of underperformance or overtraining

Personal Web Applications — *Independent Development*

- Built a custom video dashboard integrating the YouTube API with daily goal tracking, reminders, and a calendar using HTML/CSS/JS
- Developed a modular activity and habit tracking app, demonstrating ability to design and ship functional tools independently

PROFESSIONAL INTERESTS

Actively engaged with Exercise & Sports Science Australia (ESSA) and Australian Strength and Conditioning Association (ASCA) resources. Seeking opportunities in high-performance sport, performance analysis, athlete monitoring, and applied sport science in elite and sub-elite environments.
